 - advertising attachment
 - custom colors
 - logo lighting
 - labeling in braille

The ProCash 1500xe is the entry-level system in Wincor Nixdorf's ProCash product family. With its compact size, it is the ideal system for limited space locations and when the focus is on cash handling.

An optional 15" liquid crystal display is ideal for tapping further sales potential through the integration, for example, of location-specific advertising and information offerings. The range of functions is completed by a receipt printer that has full graphics capability and can print custom logos.

In addition to its basic functions of dispensing cash and displaying information, the ProCash 1500xe can be modified to meet a financial institution's specific requirements.

- Load/unload electronic purse
- Print receipts or other documents with a full-graphics printer
- Issue tickets or vouchers from versatile cassettes
- Audio systems (loudspeakers/headset)

Featuring up to four cassettes, the ProCash 1500xe also guarantees maximum availability in installations outside bank foyers, service stations or supermarkets.
